

COMPANY PROFILE

1. GENERAL

Kekon, a company producing a wide range of multilayer ceramic capacitors, is an independent private company. The company is located in Žužemberk, 51 km from Ljubljana which is the capital of Slovenia.

The company KEKON, as a fast growing supplier for Multilayer ceramic chip capacitors as well as Multilayer leaded ceramic capacitors and other specialty MLC products, has developed a very large range of high quality capacitors.

To serve its customer in the best possible way and to comply to most of their needs, KEKON has a state of the art equipment, which makes it possible to produce capacitors upon specific customer's requests.

2. GENERAL INFORMATION ABOUT THE COMPANY

2.1. The company trade mark: KEKON
CERAMIC CAPACITORS
Address: GRAJSKI TRG 15
SI 8360 ŽUŽEMBERK
SLOVENIA
Phone: +386-730-87-703, 730 -88-033
Fax: +386-730 -87-471
E-mail: info@kekon.com
Http: www.kekon.com

2.2. Year of establishment: 1995 (member of ISKRA Components in 1960, in 1990 as KEKO Ceramic Capacitors Factory)

2.3. Legal status: 100% PRIVATE COMPANY

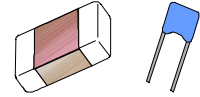

2.4. Production program:

MULTILAYER CERAMIC CAPACITORS -
LEADED AND CHIP VERSIONS:

- VP1: LOW VOLTAGE CHIP
- HV1: HIGH VOLTAGE CHIP
- HM1: AC CHIP CAPACITORS
- VP2: LEADED CAPACITORS
- HV2: HIGH VOLTAGE LEADED TYPE
- HM2: AC LEADED MLC

CHIP FUSE

- Dimension 1206 1-10A

2.5. Production capacity:

- 20 MILLION CHIPS PER MONTH
- 1 MILLION LEADED CAPACITORS PER MONTH

2.6. R&D projects:

- BME Technology (NPO, X7R, Y5V)
- EMI FILTERS
- CHIP FUSE

2.7. Number of employees: 50

- DEVELOPMENT ENGINEERS: 4
- MANUFACTURE WORKERS: 35
- OTHERS: 11

2.8. Annual turnover:

- YEAR 96: 1,2 MILLION EUR
- YEAR 97: 1,4 MILLION EUR
- YEAR 98: 1,2 MILLION EUR
- YEAR 99: 1 MILLION EUR
- YEAR 00: 1,9 MILLION EUR

- 30% DOMESTIC MARKET
- 70% EXPORT

2.9. Export by country: GERMANY, USA, DENMARK, AUSTRIA, ENGLAND, ITALY, SLOVAKIA, HUNGARY, SLOVENIA

2.10. Customers: OEM AND END USERS

2.11. Contact person:

- DIRECTOR: BORIS JORDAN
boris.jordan@kekon.com

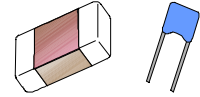

- COMMERCIAL: CILKA KASTELIC,
cilka.kastelic@kekon.com

MATJAŽ NOSE
matjaz.nose@kekon.com

- QA : BOJAN ROŽIČ
info@kekon.com

2.12. Banker:

NOVA LJUBLJANSKA BANKA d.d. Ljubljana
SEIDLOVA C. 3
8000 NOVO MESTO
PHONE: +386-7-3391423
FAX: +386-7-3391112
SWIFT: LJBA SI2X
ACC. NO.: 970-7100-119851/3

3. RESEARCH AND DEVELOPMENT

The main objective of research and development is to contribute substantially to greater competitiveness of the company. We are qualified and equipped to conduct development of new component from the idea to the prototype.

KEKON's expanded selection of ceramic multilayer capacitors will satisfy every kind of demands for general purposes, communications, automotive control, engineering.

The research and development group work closely with the following scientific Institutes and technical organization:

- the Jozef Stefan Institute in Ljubljana,
- the University of Ljubljana,
- industrial research institutes.

4. COMPANY STRATEGY

On the basis of its long experience and presence in the market, KEKON has re-oriented itself towards production of custom-designed products with higher added value.

From the point of view of forward programming and technology, KEKON is oriented towards market niches.

Company goals are:

- become competitive on highly developed countries market,
- market niche exploitation,
- enter long-terms cooperation,
- widen the spectrum of passive SMD,
- quality assurance

5. KEKON QUALITY STATEMENT

Quality at Kekon is conformance to requirements in all our dealings with:
Our Customers - Our Vendors -Our Employees - The Environment.

The system for quality is prevention of defects, and to attain continuous improvements in every activity. Every employee is committed to doing the job right, the first time.

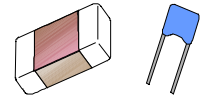

Kekon is ISO 9001 certified by BVQI.

6. SALES PROGRAM

KEKON's capacitors are offered as the SMD chips and as leaded capacitors in three most popular temperature characteristics. These are designed by the IEC Standard the ultra stable CG (NP0), the stable 2R1 (X7R) and the general purpose 2F4 (Z5U).

Here are the main groups of KEKON's newest range:

- Chip and leaded capacitors 16 to 500 Vdc series
- Chip and leaded high voltage capacitors 1 to 10 kVdc series
- Chip and leaded alternative voltage capacitors for radio interference suppression and safety capacitors
- Expanded capacitance range capacitors
- Capacitors designed according to custom specifications

The newest innovation in KEKON's program represents a range of BME capacitors not only at low voltage range but also high voltage applications.

7. PRODUCTION

The current and future planned production will be carried out on the floor area of 2300 m². Technical facilities have been modernized in end of year 2000 and beginning of 2001. More than 1mill EUR have been invest in new production machinery.

The raw materials used in the production process are products of world manufacturers and leaders in ceramic design and developments.
